LCRI24.19 This office, the subsecretariat for programming (i.e., planning) and development, cannot be subsumed directly under the state (province) since it's function is not likely to be carried out under another state office other than the ministry of economics ... searching the name authority file or catalog for other agencies of this province (state) to see if they also have offices of planning and development may also be a good idea.

NOTE TO TRAINER:
Remind class that the Ministerio de Economía should also be established.
